Baron Liebig in his celebrated work on Animal Chemistry says: 'An Artificial Digestive Etuid, analogous to the Gastric Juice, may be readily prepared from the nuccous membrane of the stonach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the human stomach.

Dr. Combe, in his valuable writings on the Physiology of Digestion, observes that 'a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspesia; 'and he states that a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gastric Juice obtained from the stomachs of living animals, which proved completely successful.

Professor Dunglison, of the Jefferson College,

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Phy-siology, devotes more than fifty pages to an ex-amination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach and from ani-mals, are well known. 'In all cases,' kesays, digestion occurred as perfectly in the artificia,

DR. C. M. JACKSON,
T THE GERMAN MEDICINE STORI
120 Arch Street, Philadelphia. Their power over the above diseases is no excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillin physicians had failed. These Bitters are worthy the attention of in-valids. Possessing great virtues in the rectifi-cation of diseases of the Liver & lesser glands, exercising the most searching powers in weak-ness and affections of the digestive organs, they

are withal safe, certain and pleasant. Read and be Convinced. Read and be Convinced.

From the Boston Bee.

The editor said, Dec. 22d:

Dr. Hoogland's Celebrated German Bitters for the cure of Liver Complaint, Jaundiee, Dyspensia, Chronic or Nervous Debility, is deservedly one of the meet popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor; a fact worthy of great consideration. They are pleasant in taste and smell and can be taken by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

Scott's Weekly,' one of the best Literary Scott's Weekly, one of the hest Literary papers published, said, Aug. 25—
10r. Hoofland's German Bilters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems.

Mure Evidence.

Mere Evidence. The 'Philadelphia Saturday Gazette,' the best family newspaper published in the United States The editor says of Dr. Hoofland's German Bilters.

'It is seldom that we recommend what are ermed Patent Medicines, to the confidence and pstronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day tha are noised about for a brief period and then for-gotten after they have done their guilty race of mischief, but of a medicine long established, u-niversally prized, and which has met the hearty approval of the faculty itself.

approval of the faculty itself.

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the three last years, and the strongest testimony in its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined a fact that can easily be established and ned, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.
